Sir:

and interest in the present application and any patent to be

record, hereby disclaims the terminal part of any patent

plus any extension thereof which may be subsequently granted,

In re of Appln. No. 10/553,318

Assignee does not disclaim any terminal part of any patent granted on the present application prior to the expiration date of the full statutory term of United States Patent No. 10/553,645 and 10/553,370 in the event that the latter patent later expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. §1.321(1), has all claims cancelled by reexamination certificate, or is otherwise terminated prior to expiration of its full statutory term, except for the separation of legal title stated above. This terminal disclaimer is being made without waiver of petitioner's rights under 35 U.S.C. §156, or elsewhere, which may be available to extend the term of any patent granted on the present application beyond the date set by this terminal disclaimer (37 C.F.R. §1.775(a)).

It is Assignee's intent that the amount of time disclaimed and the scope of the common ownership clause be the minimum required by law and this document is to be construed to

In re of Appln. No. 10/553,318

effectuate said intent. No admission is made that any claim of the present application is obvious over any claim of Patent No. 10/553,645 and 10/553,370.

The statutory disclaimer fee of \$65.00 for a small entity per 37 C.F.R. §1.20(d) is attached.

Respectfully submitted,
